Cellar VBS - A One in Christ Effort

There were months of planning, coordinating and recruiting volunteers. One week out from launch the St. Francis Xavier Gathering Space began to be transformed into a space station ready to share the love of God with hundreds of preschool and elementary-aged kids. Offering both an evening and a morning session, Stellar Vacation Bible School blasted off for a week of learning about God's love and shining His light through Bible stories, science exploration, outdoor games, learning about Saints and even snack.

The Stellar team of Melissa Fox, Danna Gasperlin, Shirley Scapani, Scott Frieler and Jason Prigge made the week run smoothly with their out-of-this-world leadership. There were over a hundred volunteers (including older youth and adults) representing all four One in Christ parishes and even some volunteers from the metro area.

Part of the week involved a service project. Kids were asked to bring items to benefit Pathways 4 Youth and they all got the chance to pack a bag of items that would go to a homeless youth. If enough items were brought in, Jason, Melissa and Scott agreed to be slimed. The kids were so excited everytime they got an update on how much closer they were to their goal...to the great delight of the youth, the goal was met and the week ended with slime being dumped on the heads of the dedicated leaders.

Our great One in Christ Faith Formation leaders are already dreaming about VBS next year...make sure you make time to join us for SCUBA - Diving Into Friendship With God.
